WHERE succ$$ is FAILURE (special one-yr. anniversary edition

is part of the "WHERE?" series, an educational, geographical survey of the greater Nightmare City land area. For distribution to your school, community center or brain please visit nightmarecity.org or contact b.peters (b.peters@nightmarecity.org

When the
Nightmare
City Council
was born
it only
had one
wheel

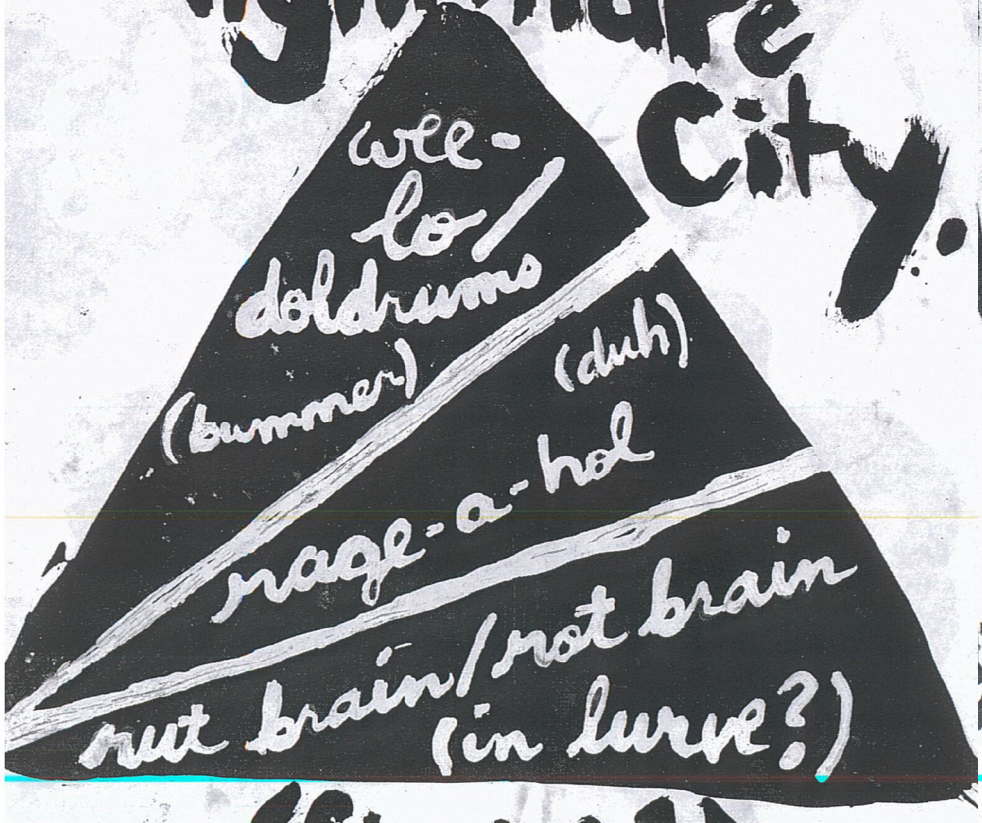

But they didn't
let that
stop them.

now they
have
4

But 3 is the magic number.

There are 3 emotions in Nightmare City.

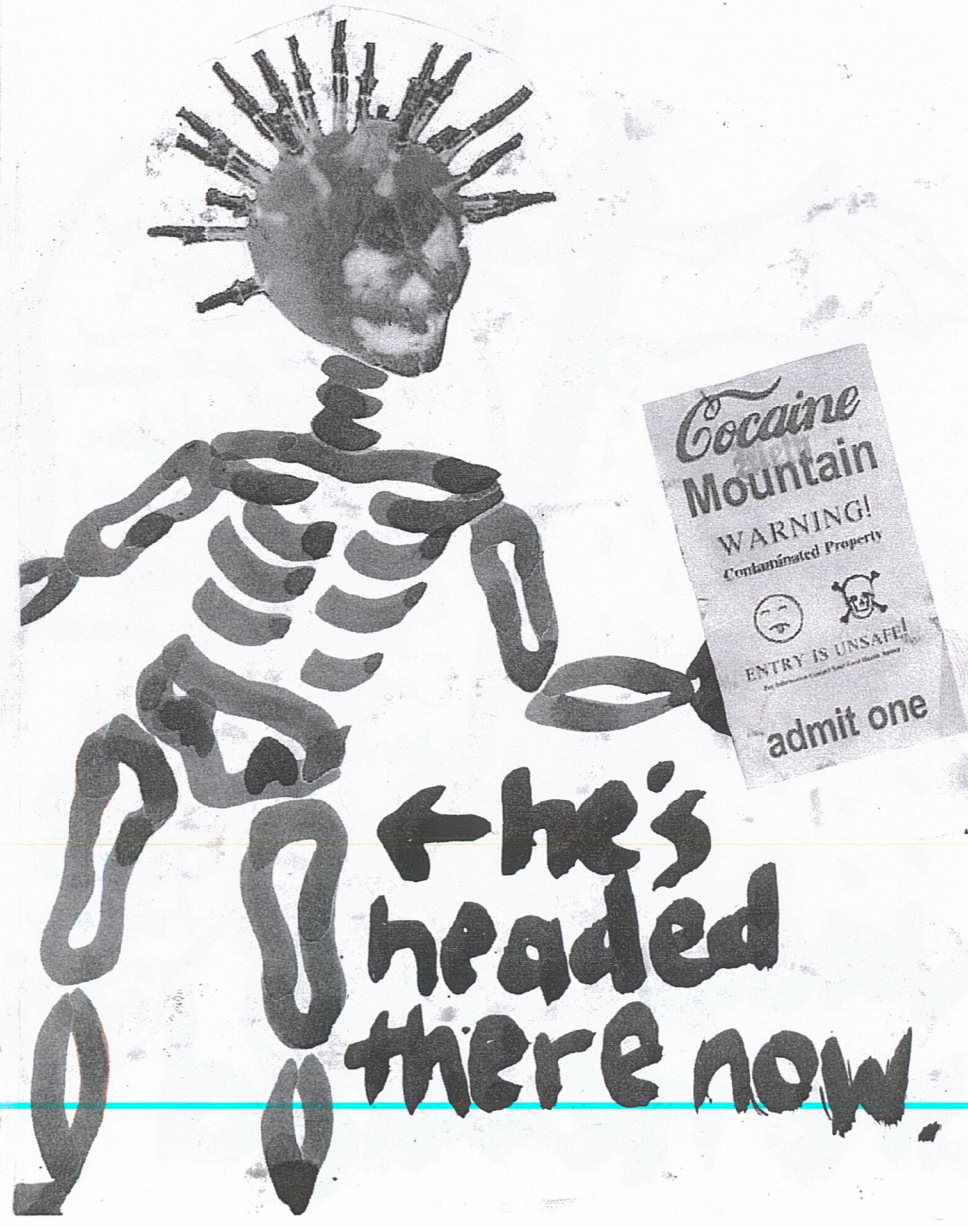

(figure 1)

there are also 3 districts in Nightmare City.

councilman DREW GRAY oversees the industrial district. It includes the lost head factory + an amuse-ment park called Cocaine Mountain.

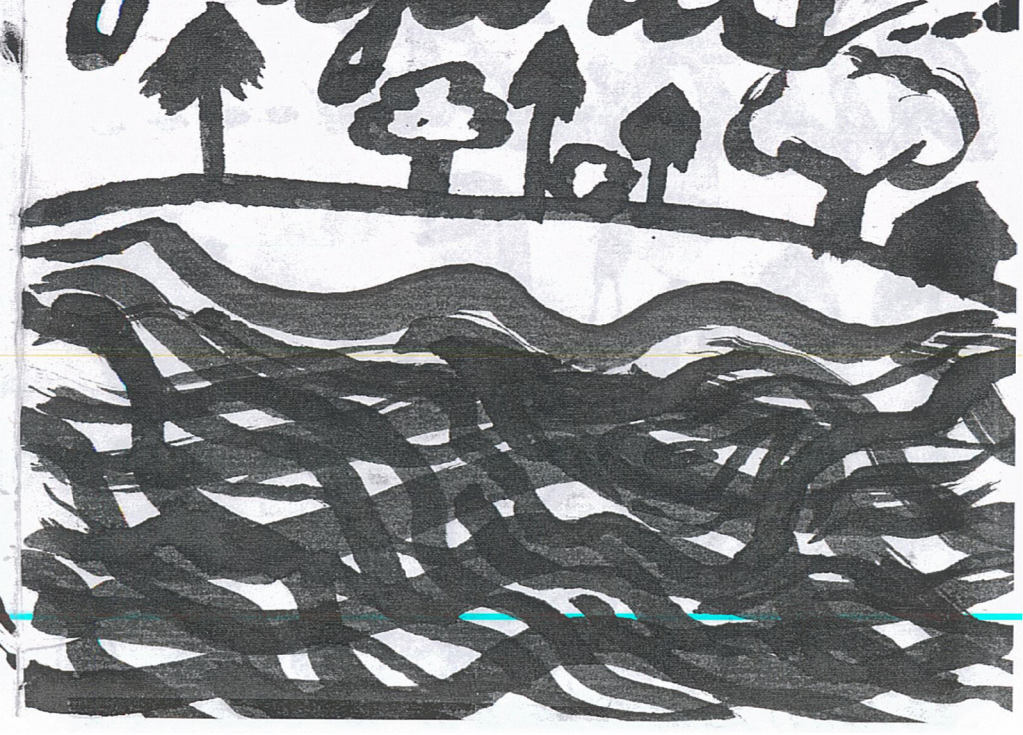

← he's headed there now.

But with citizens like these

vacations are needed

councilman Gray enjoys vacationing at LAKE gorgeous...

--leaving the twins to run amok in the arts and financial districts....

((Nah, there's 176 wheels!))

MOST OF THE RESIDENTS are not AMUSED

Rollerskating in the studio is, like, a bozo no-no. I mean it's very distracting for us serious artists who are, you know, very serious. Also, sometimes I can't hear "This Nightmarian Life" over "Gossip Whores." I just don't see WHY you would watch T.V. when you're in the studio.

And what's with this "total artist" schtick? I mean, is it art as life or life imitating art or plain old irreverence?

DO YOU THINK THEY even know the Difference?

NEON!?! really?

They expect people to pay MONEY for a XEROX?!?

Wait, though, who's MRS. Carruthers and who's b. peters? Is this denial, delusion or deception?

Bluthering Heights in
"Heathcliff, it's me- Cathy."
HEAVEN

Come visit
SUNNY
Nightmare City!
